DISCOVER THE DIFFERENCE

delta.duerkopp-adler.com

Imagine something that opens up completely new possibilities for you.
Something big, powerful and brilliant. Imagine a technology that is helpful,
intelligent, and easy to use at the same time. A technology that belongs to you.

Sewing is what drives us. Innovation is in our DNA.
With our pioneering spirit we take sewing into a new era.
Discover the difference. Discover the new M-TYPE DELTA.

“My challenges? Changeover! Every day! From one worker to the next. From fabric to leather. From a known product to a new one. From serial production to mass customisation. With limited time and no wastage. Manage this and you have the cutting edge!”

Yang Wu /
Sewing Production Manager

“My wish? To have a communicator. I just want to ask: “What’s up?” and then see what needs to be done and how to do it. Man! I could solve two hundred percent more problems. That would make a real difference!”

Ionut Budescu /
Sewing Technician

“My dream for a perfect workplace? I wish to have an assistant! Someone who knows what I have to do. Someone who sets up the workplace for me. Someone who knows me!”

Linda Hernandez /
Seamstress

DISCOVER THE DIFFERENCE

Imagine a sewing machine that knows you and your demand for the perfect seam. Imagine a machine that always knows what to do and how to do it right. A machine that learns continuously and gains new valuable functions and features through software upgrades, without any mechanical changes. Think about a sewing machine that enables new business models or enhances your work processes – with a technology that helps you make the right decisions in your manufacturing and service processes. Imagine a machine that reduces wastage to an absolute minimum. A machine that communicates with others and with you.

Imagine the possibilities!
This is the vision of M-TYPE DELTA.

RIGHT FIRST TIME

Produce flawless seams without time-consuming machine adjustments when changing materials or work steps

GUIDED WORKING

Benefit from quick changeover with the lowest training time to next work task thanks to video instructions, tutorials and material correctness check. Implement your own best practice media

OPTIMIZE AND GROW

Receive new features and functions online, monitor your production with QONDAC Networks and connect new hardware options easily

MY PERSONAL DELTA

Log in and get your workplace automatically set up based on your preferences. Communicate with the machine and your partners

ZERO DOWNTIME

Reduce your downtimes through easy error fixing via guided repair. Reach highest machine availability due to preventive maintenance and guided service, enriched with your own expertise

BEST IN CLASS

Experience the finest seam quality in the industry with beautiful clean seam start and ending

ZERO WASTE

Avoid wasting valuable material with smart stitching error prevention

“To develop a machine for a new era is an exciting challenge. You have to listen carefully to customers and understand their needs and pains entirely. You need to reflect mega-trends like individualisation and sustainability. Then you have to combine the most advanced technologies and transform them into a groundbreaking solution that really makes a difference.”

This pioneering spirit drives the M-TYPE DELTA. I am proud to be a part of it.”

Sebastian Kinnius /
Head of Product Management
Premium Sewing Technology
