1 Reduce machine setup costs

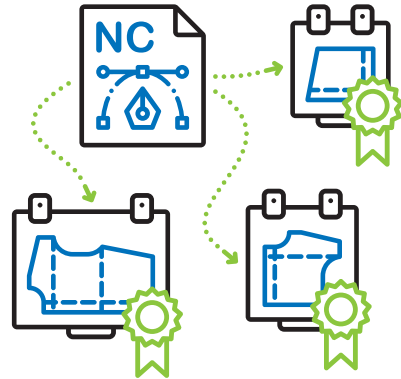

Reduce your machine setup costs for all CNC machines of the DA GROUP by **at least 20%** by easy transfer of sewing data.

2 Create and change complex designs at short notice

Create complex geometries within shortest time and benefit from our **fully configured CAD system** offering optimum support when realizing short-term design modifications.

3 Increase the quality of your individual material holders

Continuously increase the quality of your individual material holders by **highly efficient self-manufacture** as well as **precise output and transfer** of NC data (G-code).
