New - 581-151:

Buttonholes in knitwear

A shapely, even buttonhole with low intermediate fabric is required also for knitwear.

However, to work double-chainstitch buttonholes in knitwear places different demands on the machine than woven fabrics does.

With a solution specially developed for these knitwear requirements, a filigree buttonhole can be realized in knitwear.

Advantage:

- High-quality double-chain stitch buttonhole with small intermediate fabric in knitwear

Ask your contact person for the special solution for knitwear. (Please refer to the special order no: **19S0518**).
