

# GERMAN AUTOMOTIVE DAYS

Shanghai 24.-27.09.2012

Inhouse exhibition for manufacturer of automotive interior, car seats and other automotive components.

# GERMAN AUTOMOTIVE DAYS

Automotive Interior is in the focus of consumers. New material, design and safety requirements have to be realized by producers. A challenging task for a high efficient production.

The leading German suppliers of production equipment for Automotive Interior will show the best machines and tools for leather and textile related operations. Take the chance to inform yourself at the first **GERMAN AUTOMOTIVE DAYS IN SHANGHAI**. Parallel to the machine show, you may attend to different presentations where special solutions for your daily production problems are explained from German specialists.

The exhibition is clearly focused to automotive production needs and will be organized by Duerkopp Adler Trading Shanghai.

Please use the enrollment form for a personnel support service

## **Dürkopp Adler AG**

---

Dürkopp Adler offers solutions in the field of sewing technology used in a wide range of applications.  
[www.duerkopp-adler.com](http://www.duerkopp-adler.com)

## **EFKA - Frankl & Kirchner GmbH & Co. KG**

---

Efka – Expertise in drive technology and automation for industrial sewing machines  
[www.efka.net](http://www.efka.net)

## **FORTUNA Spezialmaschinen GmbH**

---

Splitting and skiving – as market leader we are setting the standards.  
[www.fortuna-gmbh.de](http://www.fortuna-gmbh.de)

## **VEIT GMBH**

---

The VEIT Group is worldwide the leading manufacturer of ironing equipment, fusing machines, underpressing and final pressing machines as well as refinishing equipment for garments.  
[www.veit-group.com](http://www.veit-group.com)

## **Amann & Soehne GmbH & Co. KG**

---

AMANN GROUP – THE specialist for sewing and embroidery threads.  
[www.amann.com](http://www.amann.com)

## **Groz-Beckert KG**

---

Sewing Needles. Market leading supplier of precision tools for the textile industry  
[www.groz-beckert.com](http://www.groz-beckert.com)

## **P M F GmbH**

---

Wherever surfaces are imprinted with logos, descriptions or structures, we are your first choice with our machines.  
[www.pmf-gmbh.de](http://www.pmf-gmbh.de)

## **Expert Systemtechnik GmbH**

---

As a multi-technology provider, Expert Systemtechnik has the ideal cutting solution for all flexible, non-metallic materials like leather, foam and textiles.  
[www.expertsystemtechnik.de](http://www.expertsystemtechnik.de)

## **Ring Maschinenbau GmbH**

---

RING is a German manufacturer of high quality machines. A competent partner of complete solutions in perforating, die cutting and design development.  
[www.ring-perforating.de](http://www.ring-perforating.de)

## **Habraken Machines**

---

Habraken Machines is a company with almost 35 years of experience in the industrial sewing machines industry.
